ENHANCED SECURITY

By omitting a stock OS, IFPG1 interactive displays offer fewer security risks and vulnerabilities to exploit, making them ideal for environments with high security standards.

BRING YOUR OWN DEVICE

Power your interactive display with an external PC or your organization's OPS module of choice for seamless integration.

INSTANTANEOUS COLLABORATION

WriteAway™ technology enables team members to start writing and annotating without sitting through an extended startup sequence.

FUTURE-PROOF DISPLAY

Use your interactive display for years to come. Simply swap out your computing solution whenever it's time to upgrade.

4K ULTRA HD RESOLUTION AND MULTI-TOUCH RECOGNITION

Create immersive, hands-on presentations and lectures with stunning 4K resolution and multi-point touch recognition.
