Enhanced Collaboration and Mission-Critical Decision Making

Empower all levels of government with ViewSonic's flexible visual solutions. From ViewBoard® interactive displays for huddle spaces and conference rooms, to USB-C docking monitors for workstations, we enable secure collaboration, boost transparency, and maximize productivity.

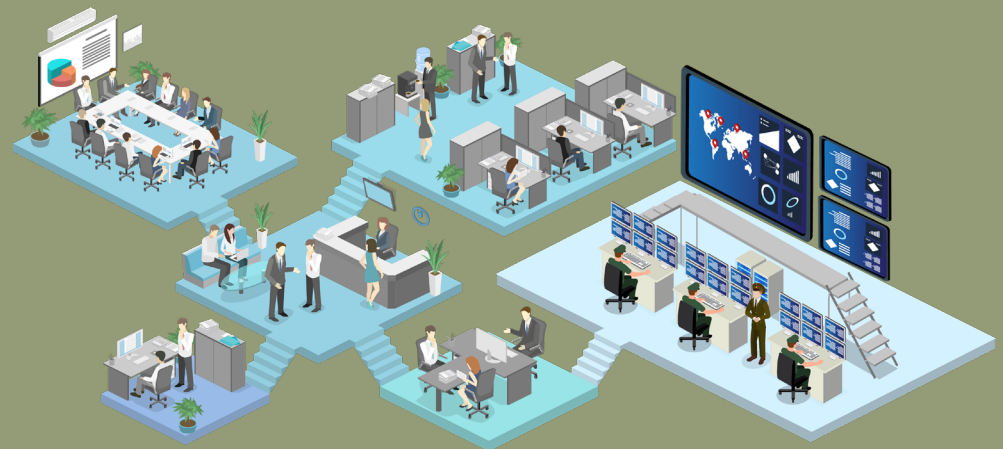

Public Spaces:

- ePosters and Kiosks
- Digital displays
- Direct View LED displays

Workspaces:

- Ultrawide monitors
- Windows Hello-certified monitors

Collaboration Spaces:

- ViewBoard interactive displays
- Digital displays
- Direct View LED displays
- TeamJoin™ Solutions for Microsoft Teams Rooms

Command Centers:

- Direct View LED displays
- Digital displays
- Ultrawide monitors

Commercial Displays

Streamline government agency communication with robust, commercial-grade displays built for unwavering performance, security, and round-the-clock operation. Swiftly and securely broadcast urgent alerts, policy changes, and routine announcements.

- Ultra HD 3840 x 2160 resolution for clear communication of important messages
- Secure and flexible installation options support both landscape and portrait orientations
- Uniform bezels and HDMI connectivity allow for up to 9-screen tiling on select models, perfect for large control rooms and situational awareness centers
- AirSync™ software on select models wirelessly mirrors your screen from any device to one or more larger meeting room displays
- ViewSonic Manager™ software on select models offers an intuitive interface for secure remote management, ensuring compliance with government IT protocols
- Seamless IT and AV Integration: These displays integrate into the Q-SYS Ecosystem via a Q-SYS LIBRARY VERIFIED plugin. They are also certified with Crestron, Extron, and AMX

IDEAL FOR:

- Lobbies
- Meeting rooms
- Command and control centers
- Hallways and walkways

Available models:

- CDEG3-TAA series
- CDE31 series
- CDEUW series
- CDEG3 series

Available accessories:

- **TeamJoin™** TRS10 and TRS10-UB for secure Microsoft Team Rooms integration
- **VB-CAM-201** Zoom certified video conferencing camera
- **VB-MIC-201** wired USB conferencing microphone
- **EP1052T-L/A/H** meeting room scheduler
- **VB-WMK-003** wall mount
- **WPD-900** wireless presentation system

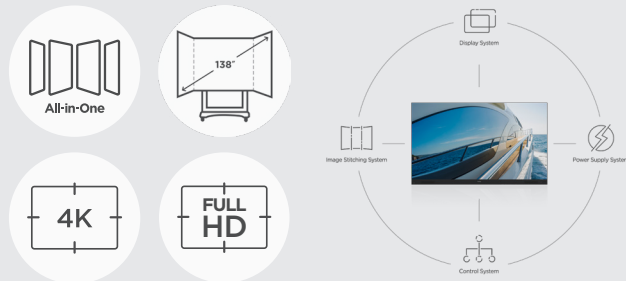

All-in-One Direct View LED Displays

ViewSonic® Direct View LED displays deliver flexible big-screen sizing and effortless installation in a single solution. Massive screens create an unparalleled platform to showcase mission-critical imaging in government control centers.

- Pre-configured models simplify the specification process with everything included under a single part number, while configurable models offer flexible customization to meet the unique needs of your space
- All-in-one design includes cabinets, LED tiles, video processing, power supplies, and cabling
- Available in a variety of screen sizes – so you can simply pick a size that is right for your space
- Models feature Glue-on-Board (GOB) or Chip-on-Board (COB) technology, as well as IP54-rated dust and moisture resistance, and IK06 (GOB) and IK08 (COB) impact rating. These features ensure durability ideal for public spaces.
- The ViewSonic® LDS138-151 Direct View LED Mobile Display is a perfect solution for multipurpose rooms and auditoriums thanks to an included flight case, mobile cart and convenient foldable 138" screen

IDEAL FOR:

- **Command centers**
- **Public areas**
- **Large conference rooms/training rooms**

Available models:

- LDS138-151
- LDE138-151-TAA

LDE Series

- LDE136G-152
- LDE136G-152-TAA
- LDE163G-182
- LDE163G-182-TAA

LDM Series

- LDM136-151
- LDM136-151C
- LDM163-182
- LDM231-251
- LDM136-151-TAA
- LDM163-182-TAA
- LDM231-251-TAA

LDP Series

- LDP136-071C
- LDP163-091C
- LDP217-121C

LDC Series

- Configurable

Available accessories:

- **VB-WPS-001** (USB-C) ViewBoard Cast™ button
- **VB-WPS-003** (HDMI/USB-A) ViewBoard Cast™ button
- **WPD-900** wireless presentation system

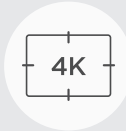

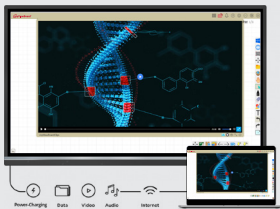

ViewBoard® Interactive Displays

ViewSonic® ViewBoard® interactive displays provide a secure and turnkey ecosystem for modernizing government operations. By integrating ViewSonic® software and optional high-performance slot-in PCs, we deliver a comprehensive platform designed for mission-critical collaboration and departmental efficiency.

- Precision Touchscreens: Engineered for strategic briefings and rapid inter-agency collaboration
- Seamless Data Sharing: Integrated screencasting protocols facilitate streamlined, high-security presentations
- Operational Continuity: Secure cloud access to critical documentation from any authorized endpoint
- Enterprise Scalability: A comprehensive lineup of display sizes ensures a standardized user experience across all environments
- Hardened Security: OS-less design (IFPG1) minimizes attack vectors by eliminating local OS vulnerabilities
- Advanced Visualization: 21:9 ultrawide displays (IFPUW) optimized for multitasking and complex data analysis

IDEAL FOR:

- Meeting rooms
- Emergency Operations Centers (EOC)
- Huddle spaces
- Command and Control Centers

Available models:

- IFP41 series
- IFP51 series
- IFP53 series (TAA compliant)
- IFP62 and IFP63 series (PCAP)
- IFPUW series
- IFPG1 series (OS-less)
- IFP110

Available accessories:

- **VB-CAM-201** Zoom certified video conferencing camera
- **VB-MIC-201** wired USB conferencing microphone
- **EP1052T-L/A/H** meeting room scheduler
- Wall mounts and carts
- **VB-WPS-001** (USB-C) ViewBoard Cast™ button
- **VB-WPS-003** (HDMI/USB-A) ViewBoard Cast™ button
- **TeamJoin™** TRS10 and TRS10-UB for Microsoft Team Rooms

TAA-Compliant Display Solutions

Solutions that are compliant with the Trade Agreements Act (TAA) are incredibly important for the high-performance computing industry where secure technologies and equipment are required. Select ViewBoard interactive displays and CDE commercial displays are TAA compliant. These displays are ideal for collaboration in government and private sector environments, meeting rooms and huddle spaces.

- These displays can be purchased from GSA schedule holders by authorized agencies
- Crestron, Extron and AMX compatibility for simple and secure integration of large deployments within your existing AV network infrastructure
- Up to 33-point touch allows multiple users to simultaneously write or draw on the display's surface
- Palm recognition technology minimizes errant touch inputs from palms, wrists, sleeves, etc., so that users can write and annotate freely
- These professional-grade displays are designed for reliable use 16 hours a day, 7 days a week

IDEAL FOR:

- **Conference rooms**
- **Training rooms**

Available models:

- ViewBoard IFP52-1TAA series
- ViewBoard IFP53 series
- CDEG3-TAA series
- LDE series
- LDM series (select models)
- LDS series

TeamJoin™ Solutions for Microsoft Teams Rooms

ViewSonic® TeamJoin™ solutions for Microsoft Teams Rooms are engineered to provide seamless, intuitive collaboration while adhering to the exacting security and compliance standards essential for government settings. Whether you're hosting top-level meetings or collaborative sessions, our certified Microsoft Teams Rooms solutions elevate communication, foster teamwork, and promote inclusivity among geographically dispersed teams.

With a wide range of display technologies and screen sizes, ViewSonic TeamJoin provides a comprehensive, secure audio-visual collaboration experience, purpose-built for the needs of government agencies.

- Utilizes Intel® 12th Gen Core processors with TPM 2.0 for enhanced security and compliance with government regulations
- Tailored configurations include computing engines, touch consoles, and 4K video bar systems to meet the specific needs of different government departments
- One-stop solution that adapts to various room sizes from small huddle spaces to large meeting rooms, ensuring flexibility for future growth
- Quick deployment with minimal downtime, featuring intuitive controls that let users instantly start secure meetings
- Delivers crisp audio and video, essential for effective communication in high-stakes environments

IDEAL FOR:

- Meeting rooms
- Secure communication centers

Available accessories:

- **MPC51WT** Intel Core i5 computing engine
- **MPC310-W31-TU** Intel Core i3 computing engine
- **MRC1111T** 11.6" touch console
- **MRC1010-TN** 10.1" touch console
- **UMC211T** 4K PTZ camera
- **UMB202** 4K video bar system
- **UMS301T** PoE speakerphone

Available solutions:

- **TRS50**: includes i5 computing engine and 11.6" touch console
- **TRS50-UC**: includes i5 computing engine, 11.6" touch console, and 4K PTZ camera
- **TRS10**: includes i3 computing engine and 10.1" touch console
- **TRS10-UB**: includes i3 computing engine, 10.1" touch console, and 4K Video Bar System

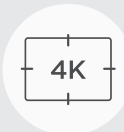

Digital Kiosks / ePosters

ViewSonic offers durable and versatile digital kiosks and ePosters specifically designed for government facilities. These all-in-one displays are built to withstand the rigors of bustling public spaces and provide a variety of configurations suitable for wayfinding directories, visitor check-in kiosks, and health and safety stations.

- Enhanced security features, such as lockable media player cradles, ensure safe operation in high-traffic public areas
- Sleek designs, with options for touchscreen or non-touchscreen displays, fit various government environments
- Powerful all-in-one SoC with built-in multi-core media player and 16GB storage, ideal for broadcasting important information or public service announcements

IDEAL FOR:

- Lobbies
- Hallways and walkways

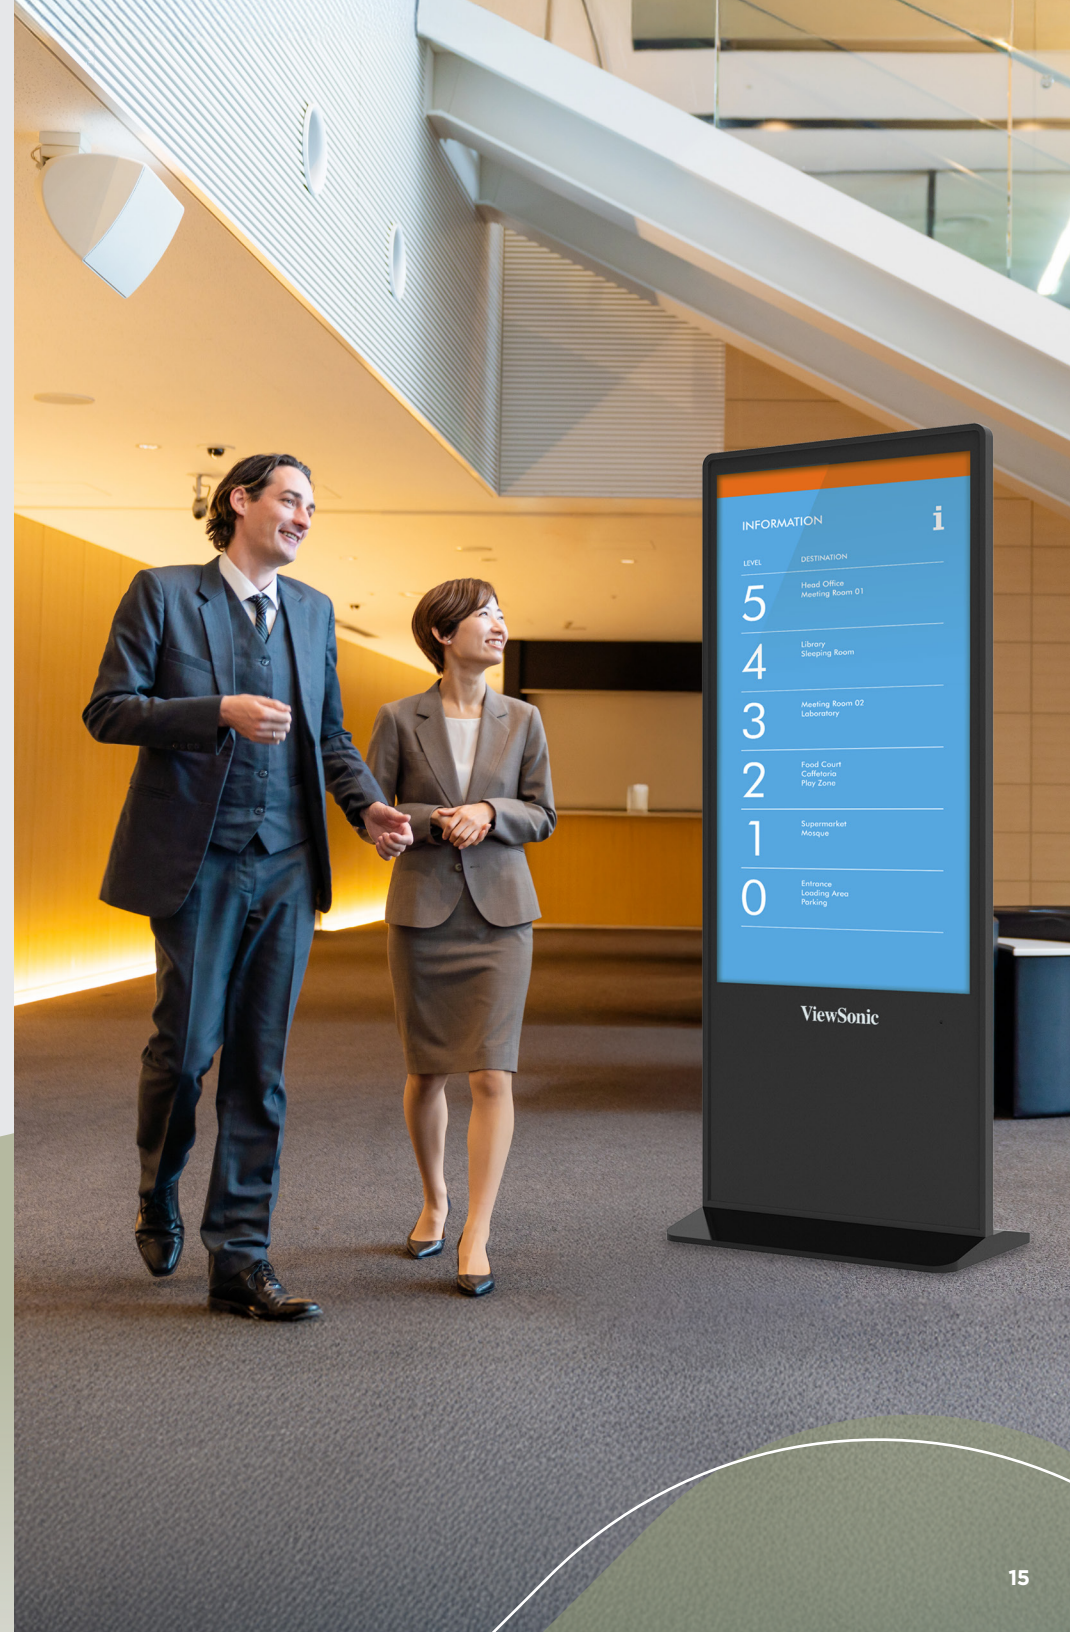

Available models:

- EP1052T-L/A/H
- EP5542 / EP5542T

Available accessories:

- **EP-WHL-005** wheel kit for EP5542/EP5542T
- **VSB050** USB Wi-Fi dongle for EP5542/EP5542T
- **NMP599-W-2** network media player with Signage Manager software and perpetual license included

Digital Podium

myPodium™ ID2456-4K Interactive Display

We offer seamless conference room solutions to make meetings more engaging. Add interactivity to your presentations by pairing ViewSonic® myPodium™ ID2456-4K Interactive Displays with a projector or Direct View LED display.

- Advanced PCAP touchscreen with palm rejection and precision handwriting accuracy
- USB-C single cable plug-and-play for easy installation and up to 98W of charging power
- Cross-platform touch support for Windows, Android, ChromeOS and macOS (*vTouch software is required on Apple platforms)
- A built-in ergonomic kickstand can be precisely adjusted through 55 degrees of tilt
- HDMI out for easy content mirroring to large screens

IDEAL FOR:

- Conference rooms
- Training rooms

PCAP
touch

4096 levels
of pressure sensitivity

MPP2.0
active stylus

Available model:

- ID2456-4K

Available accessories:

- **STND-060** ergonomic dual-hinge stand
- **STND-060-2** PC mounting bracket

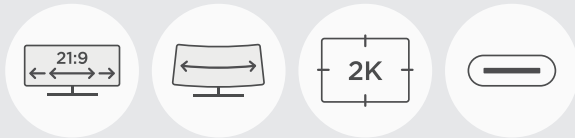

Ultrawide Monitors

With more screen real estate and wide-angle panoramic viewing, our 21:9 ultrawide monitors let you display more content, switch between applications more quickly, view documents side by side, and view multiple windows at once. Select models include:

- USB Type-C single cable integration for video, audio, data and up to 100W power delivery
- HDMI, DisplayPort, and USB hubs offer plug-and-play connectivity for PCs, laptops and other devices
- Integrated docking stations
- Windows Hello-certified models include IR integrated camera for convenient facial recognition and a safe, password-free, single user sign-on

IDEAL FOR:

- **Command center workstations**
- **Individual office stations**
- **All levels of government employees**

Available models:

- VG3456CA
- VP3456a
- VP3881a
- VG3820C
- VG3457CV
- VX3418-2K
- VX3418C-2K

Thunderbolt™ 4 Monitors

Today's business laptops are more powerful than ever, and Thunderbolt connectivity is quickly becoming standard. While USB-C monitors are excellent for general office productivity, high-performance workflows often require more bandwidth. ViewSonic Thunderbolt 4 monitors are built for teams working with large files, multiple displays and high-resolution content. They deliver clear visuals, reliable performance and future-ready connectivity that keeps teams productive.

- Transfer large files in seconds with up to 40 Gbps of bandwidth
- Experience power, video, and data through a single cable. Less clutter. Faster setup
- Daisy chain up to six devices and even up to dual 5K displays from one port
- Seamless integration with Mac and Windows Thunderbolt systems, with USB-C compatibility when needed

IDEAL FOR:

- Individual office stations
- All levels of government employees

Available models:

- VP2488-4K
- VP2788-5K
- VP2776T-4K
- VP3276T-4K

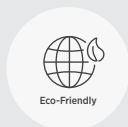

High-Brightness Lamp-Free Laser Projectors

Bring meetings to life in conference rooms of any size with ViewSonic high-brightness lamp-free projectors.

- Up to 6,000 ANSI lumens
- Advanced laser phosphor light source offers a lifespan of up to 30,000 hours, significantly reducing maintenance requirements
- No lamps means lower Total Cost of Ownership (TCO)
- IP5X/IP6X sealed optical engine eliminates filter replacements and minimizes maintenance
- Instant on/off functionality for faster meetings
- Flexible installation with horizontal and vertical lens shift and 360-degree and portrait projection
- Project 100" images inches away from the wall with ultra-short throw projectors
- Up to 5-year limited warranty, parts and labor*

IDEAL FOR:

- Conference rooms
- Auditoriums
- Training rooms

Available models:

- LX700-4K
- LS630W
- LS711HD
- LS740W
- LS740HD
- LS741HD
- LS832WU
- LS901-4K
- LS920WU
- LS921WU

*Subject to ViewSonic's standard limited warranty and on-site service terms and conditions.

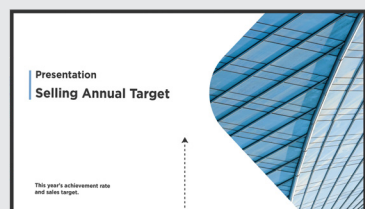

ViewShare™ WPD-900 Wireless Presentation System

The ViewSonic® ViewShare® WPD-900 is a plug-and-play wireless presentation system that brings peer-to-peer power to your meetings. No Wi-Fi? No problem. Just plug in and share your content instantly. It connects with AirPlay, Miracast, and all your devices without any setup or stress. It's the easiest way to start your meetings in conference rooms or any team space.

- Connect and present in seconds. No software, no drivers, and no setup required
- Peer-to-peer connection avoids network congestion and keeps data secure
- Built-in support for AirPlay and Miracast for easy screen sharing from iPhones, Android, or Windows laptops
- You can protect your research and data with AES 128-bit encryption during every session
- Works with Windows, macOS, iOS, Android, and ChromeOS devices
- Full HD wireless sharing with up to 60W USB-C power delivery for uninterrupted sessions

IDEAL FOR:

- **Conference rooms**
- **Training rooms**

Up to 98'

ViewSonic Software

ViewSonic® software is your visual collaboration platform. Purpose-built to connect, engage and inspire through a comprehensive suite of apps, it empowers professionals like you to work, collaborate and present in your own way.

TeamOne: TeamOne streamlines collaboration by providing a shared digital workspace for in-person and remote teams. Accessible through a browser, Microsoft Teams, or directly on compatible ViewBoard interactive displays, TeamOne integrates whiteboarding, flow charts, and other tools across different media and meeting rooms.

Manager: A cloud-based management solution that empowers IT administrators to remotely control devices, manage apps, push out broadcasts, collect analytics, and more within the ViewSonic ecosystem. Manager lets IT administrators seamlessly monitor and maintain individual displays across large organizations from a single control panel.

AirSync™: This wireless casting software allows you to wirelessly mirror your screen from any device to a larger display using our secure app or your web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast, making it easy to share content quickly and securely

vDisplay Manager: An intuitive desktop software integrated into select ViewSonic monitors. Beyond seamlessly integrating On-Screen Display (OSD) controls and basic settings, this powerful tool delivers features such as Screen Split, Auto Launch, and Smart Backlight, which allow you to **customize screen layouts and settings in order to maximize comfort and efficiency.**

Carbon Neutral Initiatives

As part of our commitment to achieving Net Zero emissions by 2050, ViewSonic prioritizes sustainability throughout our operations. This dedication is validated by SBTi Net-Zero approval and ISO 14064 certification, demonstrating our focus on reducing greenhouse gas emissions through our comprehensive carbon neutral initiatives. We excel in crafting energy-efficient products that ensure operational efficiency and environmental responsibility.

- ViewSonic offers EPEAT-certified products, meeting strict environmental standards across a product's entire lifespan. This ensures minimal environmental impact, from materials to disposal
- ViewSonic's energy-efficient products, with features like ENERGY STAR, use less power than traditional models, saving government agencies money and reducing environmental impact
- By selecting ViewSonic, government agencies demonstrate a commitment to both fiscal responsibility and environmental stewardship

ViewSonic

US-BASED, MINORITY-OWNED BUSINESS

Founded in California in 1987 by James Chu, ViewSonic is a leading global provider of visual solutions with a presence in over 100 countries. A proud US-based, minority-owned business, ViewSonic leverages nearly 4 decades of expertise to deliver a comprehensive range of hardware, software, content, and services.
