IFP62 Series

COLLABORATE FROM ANYWHERE

Interactive displays for hybrid teams.

Collaboration between in-office staff and remote employees can be challenging and ineffective without the right tools. But with ViewSonic® ViewBoard® IFP62 interactive displays, you can create an **inclusive collaboration hub that brings your teams together**— whether they are in the office, at home, or both.

Featuring next generation touchscreens and integrated myViewBoard® content sharing software, our **ViewBoard interactive displays help to create smart, connected and productive spaces.**

CONNECT
Offering one of the best collaboration experiences for Intel UNITE, Microsoft Teams, Zoom, Cisco Webex, and many more, ViewBoard IFP62 displays connect hybrid teams from any location.

ANNOTATE
An intuitive PCAP (projected capacitive) touchscreen, incredible 4K Ultra HD resolution and an included OS allow for an incredibly natural and responsive whiteboarding experience.

SHARE
A flexible web interface allows multiple users to easily access online content (such as documents, images, slides, PDFs and more), and share to the ViewBoard screen with team members.

Manager

SECURELY MONITOR AND CONTROL
The myViewBoard™ Manager Advanced app allows IT managers to monitor networked displays, control access, push multimedia content and more.

SEE AND HEAR
Optional ViewSonic webcams (VB-CAM-001, VB-CAM-002) and portable speaker (VB-AUD-201) can be used in conjunction with the ViewBoard display to connect in-office employees to remote workers. Remote workers can also utilize ViewSonic video conferencing monitors with built-in webcams from their home offices.
