

VIEWSYNC3-S

Key Features

REFURBISHED

- Easy and instant projection with AutoProject™ Key
- Manage content from up to 60 connected devices
- Concurrent support for WiFi, Miracast, and DLNA
- Real-time annotation and screen interaction
- Dual band wireless support

Product Description

The ViewSonic ViewSync®3 Wireless Presentation Gateway enables instant streaming of Full HD 1080p content from multiple devices to a single projector or display. Using the AutoProject™ Key (a USB dongle), users can wirelessly and conveniently plug-and-play from their own devices such as laptops, tablets, and smartphones. With support for up to 60 connected devices, the ViewSync3 delivers a fully interactive group presentation experience ideal for classrooms and meeting rooms. For better organization of the lesson or meeting, a Moderator Mode provides a preview of the content on all connected devices. In addition, an Annotator Mode and USB back channel functions enable the host to interact and annotate directly on the display screen, as well as assume full mouse and keyboard control. With easy streaming and convenient features for controlling content from multiple devices, the ViewSync 3 is an ideal wireless group presentation gateway for classrooms and boardrooms.
