Product **Description**

The ViewSonic® VX2458-mhd is a 24" (23.6" Viewable) Full HD price-performance monitor built for gaming and entertainment. With incredible image quality and 144hz refresh rate, this monitor is perfect for fast-moving multimedia like action-packed movies and high-speed games. AMD FreeSync™ technology virtually eliminates screen tearing and stuttering for fluid game play, while an ultra-fast 1ms response time provides smooth blur-free screen performance. For a game winning competitive edge, a Game Mode hot key optimizes gameplay for FPS, RTS and MOBA. On top of that, a black stabilization function helps you target enemies lurking in the dark, while enabling the monitor to maintain brilliantly rich colors and contrast for total immersion. Flexible connectivity options such as DisplayPort and HDMI allow you to connect to your dedicated graphics card and gaming console. In addition, Flicker-Free technology and a Blue Light Filter help to minimize eyestrain from extended viewing periods. The VX2458-mhd is packed with all the features you need for multimedia entertainment.
