

VB-BLE-001

Key Features

- For use with panel sizes between 55" and 75"
- Maximum panel weight up to 60kg / 132lbs
- For use with VESA bracket 481A70 max VESA dimension 800x400
- For use with BalanceBox® 400 on Mobile Stand Mix
- Or for fixed install on the Mobile Stand mix

Product Description

This adapter bracket makes it possible to lower the mounting height of the panel to the level of pre-school or early learning age children. The lower mounting height allows the children to safely interact with the panel. The bracket is intended for use on a BalanceBox® 400 as a height adjustable solution, or as a fixed-height solution directly on the Mobile Stand Mix.
