

LED WiFi Bluetooth Harman Kardon Portable Projector

M1+

- Wireless screen mirroring and Wi-Fi connection to App store
- Dual integrated Harman Kardon Bluetooth speakers
- Smart Stand for 360 degree projection
- USB Type-C Connectivity
- iF Award winning design

The ViewSonic M1+ is an ultra-portable WVGA LED projector that delivers convenient entertainment in any room. With a built-in battery and over 30,000 hours of operational life, this projector will deliver years of multimedia entertainment wherever it goes. Weighing less than 1kg, the M1+'s compact and lightweight design makes it ideal for moving from room to room, or for indoor/outdoor usage. The projector's smart stand provides for simple 360-degree setup, while also doubling as a lens cover. Once the lens is uncovered, the projector automatically powers on with full brightness for instant entertainment. The lens also features a safety auto-off feature that powers down the projector when objects are detected too close to the lens. Dual Harman Kardon Bluetooth speakers provide crisp and clear sound for multimedia content, while a short throw lens can display large images in small spaces. Integrated Wi-Fi connectivity lets you stream from your favourite content providers – making the M1+ a great option for sharing and displaying videos and other multimedia content. The M1+'s versatile connectivity options include a MicroSD card slot, USB Type-A, and USB Type-C connections.

Express Yourself Anywhere You Go

M1+ Portable Cinema

iF Award Design

Metal Stand

Sturdy setup anywhere- no tripod needed.

Lens Cap

The stand also doubles as a lens cover to protect the lens from being damaged when being transported.

Power Combo

Swiveling the stand to uncover the lens powers the projector on in an instant.

Mirror the Screen from Your Phone, to the Projector

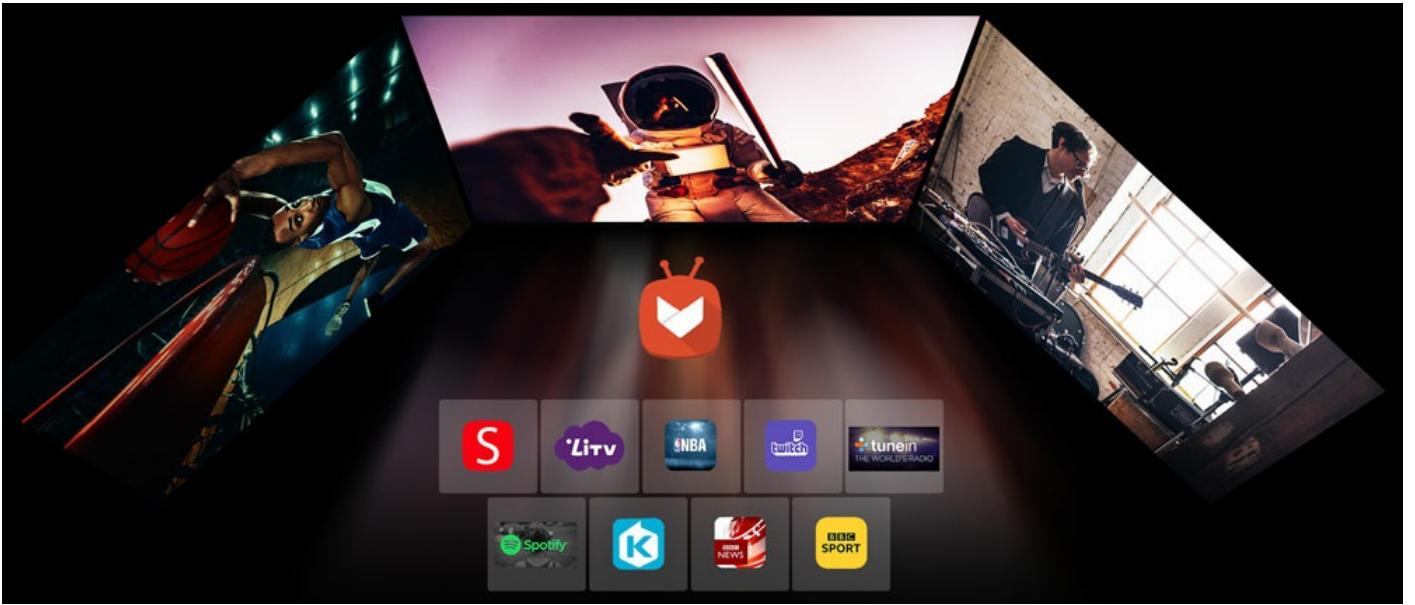

Projecting your phone screen from your projector has never been easier. Wirelessly connect the M1+ to your smart device* and enjoy big screen entertainment.

*iPhone and Android phones are supported and they need to be connected to the same network as the M1+.

Stream from Apps

Watch your favourite movies or videos via Aptoide - a hub for all your entertainment needs. Download your favourite apps over the M1+'s Wi-Fi connection.

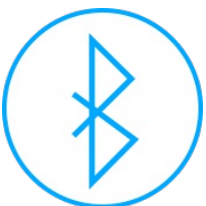

*The Apps herein are for demo purposes only and are not preinstalled in the Product. The Apps and their trademarks or logos are the properties of their respective owners, unaffiliated with ViewSonic, and not sponsors or endorsers of the Product.

Bluetooth Speakers for a Room-filling Sound

Dual speakers by Harman Kardon deliver vibrant treble, balanced mids, and strong bass for an all-around audio feast. What's more, the projection shuts off when Bluetooth activates, so you'll be immersed in pure acoustic heaven with no screen interference.

Music Mode

With the touch of a button, the M1+ instantly transforms into a Harman Kardon speaker, ready to play any sound you choose with the highest quality.

Projection in Every Direction

The M1+ is the perfect companion for lazy Sundays when you just want to relax and unwind. Whether you're curled up in bed or lounging around on the sofa, watching the latest episode of your favourite TV show is more comfortable than ever with the M1+'s 360-degree perfection projection that lets you project images onto the ceiling, wall, floor or anywhere you please – with ease.

Perfectly Proportioned Images Everytime

Say goodbye to distorted images for good. The M1+ projects perfectly proportioned images at every angle via the auto keystone feature that corrects images automatically from any angle.

Auto keystone

Stream Shows on Your Phone, Project Them Anywhere You Go

The M1+'s USB Type-C connection puts a fun twist on streaming videos and facetimeing your friends by allowing you to project content directly from your phone or tablet, anywhere you go.

*Only available for devices that support USB Type-C video streaming. Check to see if your device is compatible for USB Type-C video transmission.

*For iPhone and iPad, users need to buy Apple-authorized Lightning to HDMI adaptor

Fit for Spaces of All Shapes and Sizes

Project 100" images from only 2.6 meters away via the M1+'s short throw ratio – perfect for projecting large images in small spaces.

Cinematic Experiences On-The-Go

The M1+ is a must-have for your next camping trip or outdoor excursion. The built-in battery provides up to 6 hours of entertainment for you and your friends so you don't have to deal with tangled cords or plug the projector into a power source.

*6 hour battery life is in Battery saving mode

Eye Protection

ViewSonic has factored user safety into the M1+'s design with an Eye Protection feature that automatically cuts power to the projection beam when objects are detected too close to the lens.

Auto Blank

Objects less than 30cm away from the lens.

Eye Protection

Palm Sized

The M1+ is small enough to fit in the palm of your hand and weighs 750g – making it easy to put in your bag or suitcase for presentations on-the-go.

Plug & Play

The M1+ has a versatile array of connectivity including HDMI and USB Type-C for connecting to your laptop, phone or tablet as well as USB and MicroSD drives. 16GB of onboard memory allows you to save your favourite content directly onto the projector itself.

Up to 30,000 Hours Lamp Life

LED technology offers up to 30,000 hours of usage – a significant upgrade when compared to traditional mercury lamp projectors.

*30,000 hours in eco mode

Green Design

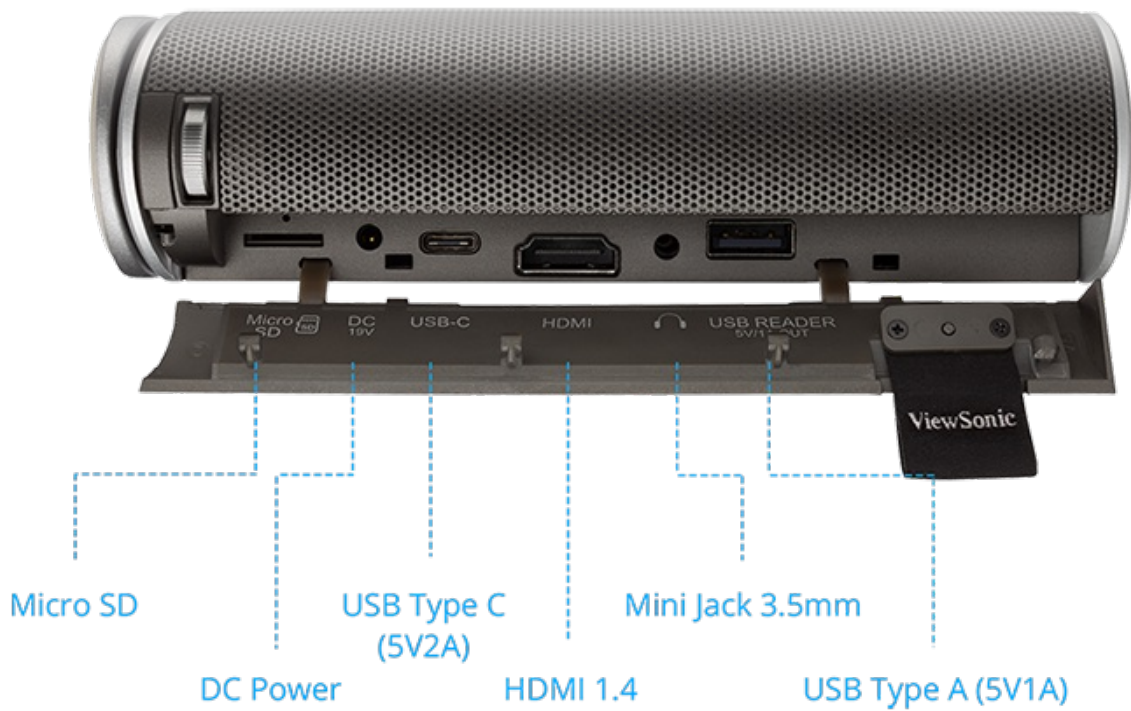

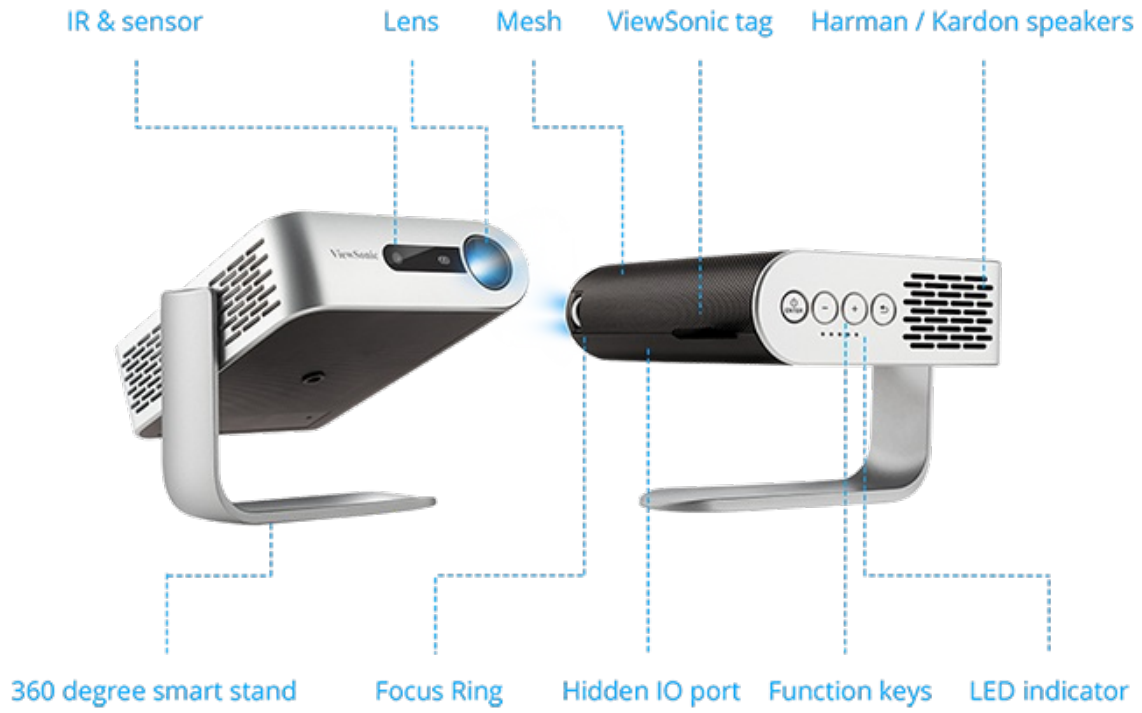

Packaging for the M1+ portable projector is paper-based, biodegradable, and 99% recyclable – all the right ingredients for leaving a smaller carbon footprint.

Realistic Color

The M1+ projects images with true-to-life colour via ViewSonic SuperColor™, which produces a wide range of the same colours we are used to seeing every day.
