

3DPF8

3D Multimedia Digital Photo Frame

Reproduce Memory Vividly

Represent the wonderful memory with 3D reality as if you are experiencing it again! ViewSonic 3DPF8 leads digital photo frame to the new age of 3D style. The most amazing representation of 3D videos and photos will catch more attention and inspire more admiration. The vivid 3D reality will make the preserved memories more touching!

3D digital photo frame will expand the experience and vision of 3D technology. 3DPF8 adopts the latest naked eye 3D LCD technology. Users watch 3D videos and photos directly without wearing special glasses. The profoundly realistic 3D display will arouse the most exciting atmosphere of sharing videos and photos. In family parties, pleasurable festivals, or product exhibitions, it will be the most eye-catching accessory.

With the large 8inch 3D screen, 720P HD high quality video and high resolution photo, the integration of MP3 music player and stereo speaker, 3DPF8 serves as a comprehensive multimedia player at the same time. With the built-in high capacity lithium battery, you can play your favorable videos, photos, and music anywhere. It serves as the best 3D portable multimedia player for your personal pleasure and entertainment!

3DPF8 accords with the trend of 3D film recreation. With the latest ViewSonic 3D camcorder and 3D digital camera series products, 3DPF8 Digital Photo Frame creates a perfect 3D filming environment for 3D videos and photos!

> 8 Inch Naked Eye 3D Display

3DPF8 adopts naked eye 3D LCD technology. The LCD plays dynamic and vivid 3D videos and photos and viewers don't need any particular glasses to enjoy 3D.

> Support the Latest 3D Filming Format

3DPF8 goes well with the latest ViewSonic 3DV5 Digital Video Camera and 3DSC5 Digital Camera series products. It will become the best player of 3D films and pictures. At the same time, it supports the Side-by-Side 3D filming format in the mainstream market.

> 720P HD High Quality Video Playback

3DPF8 supports 720P HD high quality films and 460*3456 pixel high resolution JPEG files, presenting the most delicate and vivid films.

> The Best Portable Multimedia Player

The high capacity rechargeable lithium battery and comprehensive remote control. The light and handy body weighs only 500 g. The digital photo frame serves as the best, convenient, and portable multimedia player.

> Intelligent Operation and Humanistic Functions

Automatic slide show accompanied by MP3 background music. Several functions of time, alarm clock, date, and auto shutdown provide the most intelligent operations.

> Complete Expansion Interface

The installed 128MB memory provides full storage capacity. The SD/MMC memory card slot functions in the immediate playing of films and files in digital cameras and digital video cameras. Through the support of USB port, 3DPF8 is connected with USB flash drives anytime, displaying more abundant contents of films and files.
