

# VFM886-50E

8" Digital photo frame

## It's get it all- Play music, view photos, watch videos

The new 8" ViewSonic® VFM886-50E supports high resolution of 800x600. The aspect ratio of 4:3 is the best format for displaying digital photos where images appear natural and undistorted. The VFM886-50E supports most popular card readers. Easy to use on-screen menus and controls allow you to create and edit your own personal slide shows. It also features excellent video and audio play back function. The sleek frame design complements any home or office. It's a great gift for any occasion: birthdays, anniversaries, graduations, baby showers or get one for yourself and show all of your favourite photographs with quality, convenience and style.

### Features

- > USB 2.0 port for fast photo imports from your camera, computer or USB device.
- > Support JPEG photo formats
- > High resolution of 800x600 for crisp and brilliant picture quality
- > 4:3 aspect ratio to display the best digital image format without distortion
- > Calendar, clock, alarm and auto on/off features
- > Support SD/MMC/SDHC memory card readers
- > Support various transition effects and selectable speeds
- > Video/audio features for a personalized viewing experience
