

PLED-W500

Big Impact From A Small LED Full HD Pocket Projector

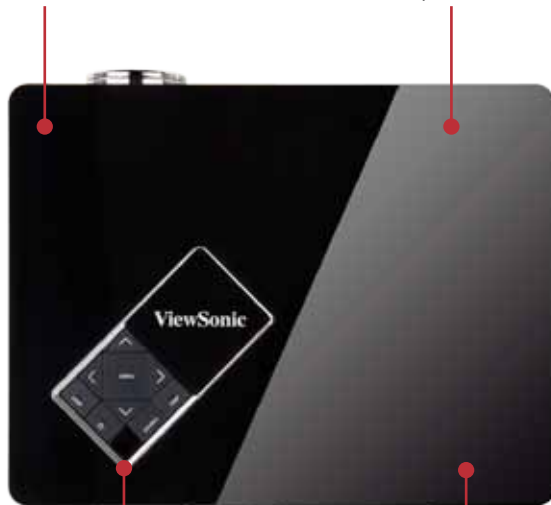

The ultra mobile solution for anyone needing the best possible display in a lightweight durable design. As light as 1.18Kg, the discreet and stylish case is designed to fit in the most compact of spaces. Delivering a high contrast, high quality 500 lumens display in full WXGA (1200x800) resolution, the PLED-W500 is perfect for meetings, training sessions or the travelling executive.

LED illumination technology from ViewSonic offers a 50% power consumption advantage over traditional projector technology, but has the added benefit of increased lamp life, 500% more than traditional lamps. LED illumination technology means longer product life, less heat, no cool down procedures and a greater resilience to everyday use.

The PLED-W500 even includes an integrated media player and Microsoft Office document viewer, which when used with the built in memory card reader or USB port means a laptop or PC is not needed to make presentations. This reduction in cables, devices, power consumption, weight and ambient noise not only makes the projector ultra mobile but helps the user to be mobile as well, making it the perfect travelling companion.

Compact and portable at 1.18kg's, complete with carry case. Dimensions: 214x164x42mm (8.4"x6.5"x1.7")

True PC Less Presentation with Microsoft Office Viewer installed to display Word, Excel and Powerpoint files

USB Display available to connect laptop to the projector, much neater than a VGA cable

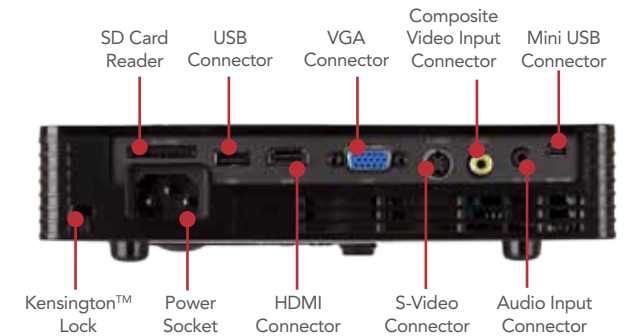

High contrast, high quality 500 lumens light source. Because the lamp is LED, this gives a much higher perceived brightness than the specification

Auto Keystone – corrects image geometry automatically

Up to 20,000 hours lamp life (4-5 times more than conventional projector lamps!)

Plug your USB or Micro SD card directly into the projector, no laptop or cables needed

Full WXGA (1200x800) resolution with HDMI input which supports HD

No cool down procedure, just switch it off and you're ready to go

50% power consumption advantage over traditional models

LED Full HD Pocket Projector

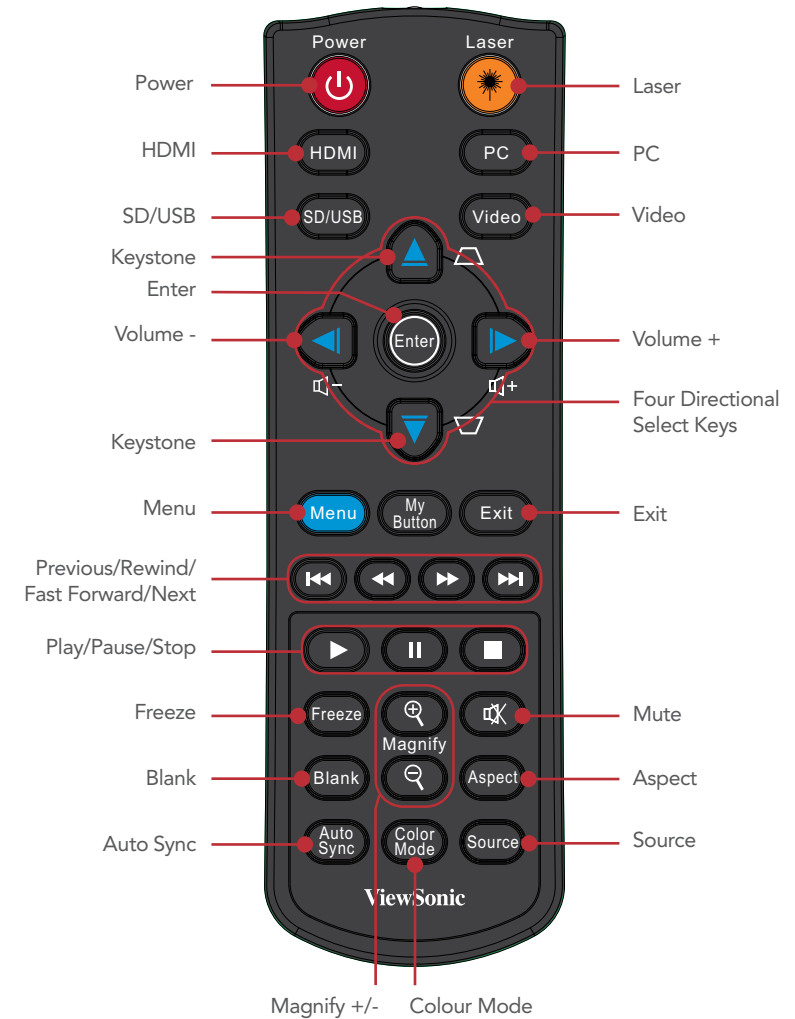

Projection Distance: Refer to the graph and table below to determine how far a projector should be placed from the screen to achieve a specified screen size and image clarity.

Full Sized Remote: The PLED-W500 comes with a full sized remote control enabling the user to operate many features on the projector at their convenience. This also includes all the features available via the OSD (Online Screen Display) menu.

Aspect Ratio 16:10

Projection Distance	Screen Width	Screen Height	Image Size	Offset
metres	metres	metres	inches	metres
0.6	0.43	0.27	20	0.013
0.9	0.65	0.4	30	0.020
1.2	0.86	0.54	40	0.027
1.5	1.1	0.67	50	0.034
1.8	1.3	0.81	60	0.040
2.1	1.5	0.94	70	0.047
2.4	1.72	1.08	80	0.054

For guide purposes only. When projecting images with 16:9 and 4:3 aspect ratio the data will be different.
