Solstice™ Software Small Group Edition

ViewSonic® See the difference™

SW-051

When running on a PC connected to a ViewSonic® display or projector, Solstice Software Small Group Edition enables up to four users to simultaneously share content from a range of devices (laptops, tablets, or smartphones) over a Wi-Fi or LAN network. With a Solstice-enabled ViewSonic display or projector in the room, a number of users can instantly connect, share, and control content on the display or projector to better facilitate presentations, collaboration and decision-making. For large deployments, the Solstice Dashboard enables centralized management of all Solstice-enabled displays across the network.

- Designed for up to 4 users
- Connect with Windows PC, OSX, iOS & Android™ devices
- Multiple users, sharing unlimited content
- Customizable display layouts
- Share the desktop, apps, docs, images & videos
- Configurable sharing options, access control, and use modes
- Free 30-Day Software Trial

Connect with Windows PC, OSX, iOS & Android devices

Solstice enables multiple users to simultaneously share media from a range of devices (laptops, tablets, or smartphones) to any ViewSonic display or projector, over a Wi-Fi or LAN environment using "free" client apps.

Multiple Users, Sharing Unlimited Content

Solstice-enabled displays or projectors allow multiple users to instantly connect, share and control content on the display or projector to better facilitate presentations, collaboration and decision-making.

Customizable Display Layouts

Customize the layout of the Solstice-enabled display or projector to fit the needs of your meeting or presentation. Using the "Freeform" layout mode, you can arrange and scale media for a completely customized layout.

Share the Desktop, Apps, Docs, Images &

Videos

Once a Solstice-enabled display is on the network, anyone with a supported device can simultaneously connect to the display, share content, and control a variety of media items.

Configurable Sharing Options, Access control, & Use Modes

Runtime control and access control modes enable users to dynamically change session access. Multiple use modes support both presenter-controlled sessions and 'equal-access-for-all'.

Free 30-Day Software Trial

Enjoy a free 30-day trial of Solstice Visual Collaboration Software and learn how you can enhance collaboration with any ViewSonic large format display or projector.

Leverages Existing Investments

Easily installed on a standard Windows computer connected to a display or projector, Solstice software requires no proprietary hardware and runs on an existing WiFi or Ethernet network.

Easy Display Management

Configure, manage, and monitor displays or projectors throughout the enterprise from one centralized interface. Dynamic access and control options can be changed without interrupting a live session.

Technical Specifications

ViewSonic® Limited Warranty

ViewSonic provides customers with the security of a manufacturers warranty against defected products. The type and duration of the applicable warranty service varies by product type, country of purchase and can also vary on an individual basis according to customer requirements agreed at time of purchase. The warranty will expire after the end of the warranty period.
